

INTRODUCTION

The 2001-02 edition of Vital Education Statistics presents the status of education in New Jersey. These data are compiled from the New Jersey State Department of Education's annual fall survey data collection of local districts and schools. This information is used to meet state and federal mandates for information pertaining to the current condition of education in New Jersey, as well as for the purposes of educational research and policy considerations. Beyond the significance of any single number reported for a particular year, the importance of these numbers lies in their value as annual benchmarks that may be used to reveal trends over time.

As in prior editions, the data are reported within the following distinct sections in a single volume:

- **Section I** includes local district and school organization data, charter schools, and selected program enrollments;
- **Section II** includes student enrollments statewide, as well as charter schools;
- **Section III** includes student dropouts and dropout rates;
- **Section IV** includes high school graduate data including post-graduation plans and graduation rates;
- **Section V** includes certificated staff data, including major assignment category, full- and part-time status, gender, racial/ethnic category, salary distribution, mean salary, mobility, and staff per student ratios;
- **Section VI** includes non-certificated support staff data by position; and
- **Section VII** includes school count, enrollment, and program data for identified nonpublic schools.

Again, as with the previous edition tables of information pertaining to the New Jersey's new charter schools are included. The Charter School Program Act of 1995 (P.L. 1995 c. 426, *N.J.S.A. 18A:36A*), effective in January 1996 authorized the Commissioner of Education to establish a charter school program. Charter schools hold the promise of creating a new kind of publicly funded school –

one that breaks the traditional mold in an effort to help children achieve at higher levels. The introduction of charter schools is not just part of an isolated reform effort, but it is one innovative strategy in a broader effort to bring about significant improvements in student achievement. A definition of a charter school appears in the glossary.

**NOTES FOR
SELECTED EDUCATIONAL STATISTICS
School Years 1992-93 to 1996-97 and 1997-98 to 2001-02**

- (a) Minority counts for enrollments, dropouts, and graduates include all categories of racial/ethnic origin with the exception of "white."
- (b) Dropout and graduation data are for the preceding school year.
- (c) The grade category of "ungraded" ceased to be collected with the 1993-94 school year.
- (d) The single-year "event" dropout rate is calculated by dividing the total number of dropouts from grades 9-12 in a particular school year by the total enrollments in those grades reported for that year.
- (e) Includes four-year college, two-year college, and other type college. See glossary.
- (f) The graduation rate is calculated by dividing the number of graduates in a particular school year by the Grade 9 enrollment reported in October four years earlier.
- (g) Beginning with the 1992-93 school year, certificated staff job assignments were reported via the department's annual Fall Survey data collection in FTE (Full-time Equivalents). Prior to that time, job assignments were prioritized based on the order or sequence in which they were reported.
- (h) Beginning with the 1993-94 school year, non-certificated staff counts were reported in FTE (Full-time Equivalents). Prior to that time, these counts were reported as full- or part-time.
- (i) Beginning with the 1993-94 school year, enrollments were collected for "on-roll" students who attend public school full time and those who attend two schools on a shared-time basis. Shared-time students are those students who attend two different schools in one day for a half school day each. For example, students who spend a half school day in an academic high school and a half school day in a county vocational school are enrolled in the high school register under the program type, grades 9-12, and also appear in the appropriate county vocational school register. For the purposes of the department's annual Fall Survey data collection, the results of which appear in this publication, these students are reported as ".5" at each location. In previous years, shared-time vocational education students were counted in their appropriate grade (grades 9-12, post-graduate, or ungraded) by their home district and duplicated in counts of shared-time students who were sent and those who were received by each location. Subsequently, counts of students "on-roll" full- and shared-time have been combined with full-time students reported as "1" and shared-time as "0.5" at each location. Enrollment counts that include a decimal ("0.5") for demographic categories such as racial/ethnic origin and sex are due to the reporting limitations of the New Jersey School Register. For example, pupils attending a private school for the handicapped on a shared-time basis would only be reported as a "0.5" by the public school where the child is enrolled for a half school day each day. Enrollments, full- or shared-time, are not reported in a school register for private schools for the handicapped.
- (j) College or university totals include two-year, four-year, and other college.

Students Eligible for Free Meals and/or Milk	21,715	22,252	22,840	25,346	25,693

Section I:

DISTRICT AND SCHOOL INFORMATION

EXPLANATORY NOTES

These tables contain information about district and school organization and demographics. Tables in this section not referenced below are self-explanatory.

- Table 1. A non operating school district is a district that has been legally established with a board of education but does not operate any schools.
- Table 4. Includes the number of approved charter schools that were in operation as of October 15, 2001 and, the student enrollment reported as of this date. The counts of schools appearing in this table are a subset of the number of schools reported in Table 3.
- Table 5. School openings and closings are reported by local school districts to the New Jersey Department of Education through the county offices of education in the fall of each school year.
- Table 6. Student enrollments are reported for selected programs and purposes including: IASA Title 1 (See glossary for a definition of this program), the number eligible for free meals and/or milk nutrition programs, and those students enrolled in full- or half-day pre-kindergarten or kindergarten programs.
